

AYUSH KUMAR SINGH

Patna, India | +91 6200695724 | ayushkrsngh2003@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [Codolio](#)

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience across backend (Laravel, FastAPI), mobile (Flutter), and full-stack development. Built and shipped production REST APIs, cross-platform mobile apps, and AI-integrated web platforms independently and in remote/distributed teams. Open-source contributor with 49+ public repositories and 170+ community GitHub stars. Seeking Software Engineer / Backend Developer / Flutter Developer / Full-Stack Developer roles.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, Dart, PHP, SQL

Frameworks & Libraries: Flutter, FastAPI, Laravel, REST APIs, MVVM, Feature-Driven Development (FDD)

Databases: PostgreSQL, MySQL, SQLite

Tools & Platforms: Git/GitHub, Linux, Shell Scripting, WebSockets, Postman, Blockchain/Solidity (Ethereum)

Concepts: Data Structures & Algorithms, OOP, DBMS, RESTful API Design, Authentication & Authorization, Unit Testing, Clean Code Practices

Soft Skills: Teamwork, Time Management, Active Listening, Problem Solving, Remote Collaboration

EXPERIENCE

Backend Developer

Aug 2026 – Present

Fillip Technology

- Develop and maintain RESTful APIs using Laravel, PHP, and MySQL for production applications.
- Design relational database schemas and implement authentication and core business logic end-to-end.
- Integrate backend APIs with frontend applications and independently troubleshoot and resolve backend issues.

Flutter Developer Intern

Jul 2024 – Jan 2025

Medoc

- Developed cross-platform Flutter applications following Feature-Driven Development (FDD) and MVVM architecture.
- Integrated REST APIs into mobile app features and collaborated with a remote/distributed engineering team.
- Wrote unit tests and followed clean coding practices to improve code reliability and maintainability.

PROJECTS

SageSearch – Intelligent Web Search & Information Synthesis Platform | Flutter, FastAPI, Gemini API, Tavily API, WebSocket

- Built an AI-powered search platform that synthesizes information from multiple web sources in real time.
- Integrated Google Gemini and Tavily APIs for AI-generated responses and intelligent search ranking.
- Developed a responsive Flutter frontend with WebSocket support on top of a RESTful FastAPI backend.

Nex Vote – Secure Blockchain Voting Platform (Team Project) | Flutter, Node.js, Solidity, Ethereum

- Built the Flutter frontend and integrated it with backend services and an Ethereum smart contract.
- Implemented user authentication, election management, and real-time, blockchain-secured vote counting.

Musixir – Music Streaming Platform | Flutter, FastAPI

- Built a feature-rich music streaming app with background playback, backed by a custom FastAPI service.

JourneyLog – Tourism & Travel Blog Platform | PHP, Laravel, SQLite

- Built a full-stack blog platform with role-based authentication for Admin and User roles.
- Implemented category-based article filtering, blog CRUD workflows, and secure profile management.
- Integrated Laravel file storage for image uploads, article media, and dynamic post publishing.

OPEN SOURCE & CODING PROFILES

- Maintain 49+ public repositories on GitHub (37+ stars); authored a community desktop-shell fork (niri-caelestia-shell) that earned 170+ stars and 17 forks.
- Active problem solver — profile and progress tracked on Codolio (codolio.com/profile/shadowMonarch).

CERTIFICATIONS

- Tata Group – Cybersecurity Analyst Job Simulation, Forage (Jan 2025)
- Learning Linux Basics – Course & Labs, KodeKloud (Sep 2024)
- Shell Scripts for Beginners, KodeKloud (Sep 2024)

EDUCATION

Bachelor of Engineering, Computer Science Engineering

2022 – 2026

Chandigarh University, Punjab, India | CGPA: 7.9

St. Joseph's High School, Patna, India — 12th: 82% (2022) | 10th: 92% (2020)
